Opis

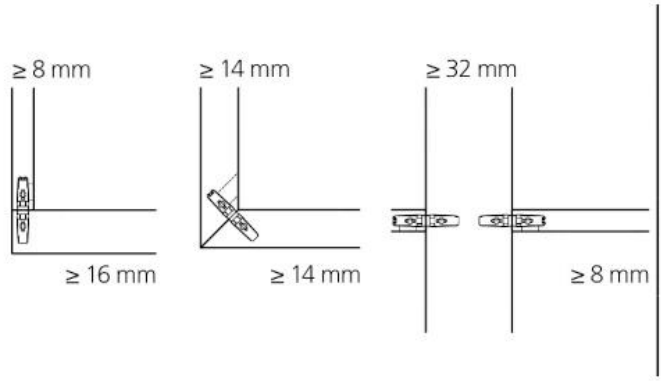

Clamex S-20 to łącznik rozłączny do systemu Lamello do materiałów o grubości od 16 mm, mocowany w rowku za pomocą wkrętów.

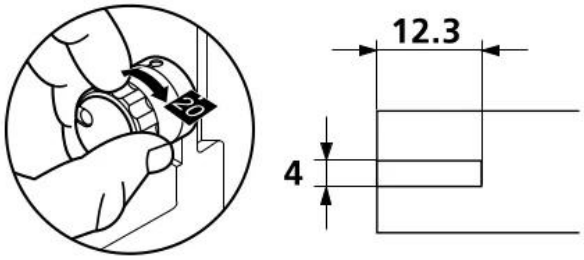

Symetryczne rowki o średnicy 4 mm można wykonać za pomocą dowolnej lamelownicy.

Clamex S-20 łączony jest z odpowiednikiem za pomocą dźwigni i posiada boczną tolerancję montażu.

Nie wymaga kleju, umożliwia estetyczne połączenia pod każdym kątem i idealnie nadaje się do połączeń stałych lub rozłącznych.
