1 TCT saw blade 120 x 1.2/1.8 x 20 mm (4 3/4 in.)/ AT, 24 teeth; Ref. No. 092558
1 Parallel guide fence, Ref. 203180
2 Clamping claws; Ref. No. 203773
1 Hose connector, Ref. 203782
1 Mains cable 4 m (13.1 ft) ; Ref. No. 087323

## examples for usage

No problem: shadow gaps with a gap width of 13 mm and above.

The FX 140 Flexi-Guide is extremely compact once rolled up for transportation and stowed in the MAFELL-MAX case.

A handy machine combined with a guide rail ensure high precision, as shown when cutting doors to length.

Everything you need for the KSP 40 Flexistem is immediately to hand in the practical MAFELL-MAX carrying case.

- Rip cuts and cross-cutting
- Bevel cuts up to 45°
- Plunge cuts
- Shadow gaps from 13 mm
- Compatible materials include board materials, doors, worktops, lathing, cladding and internal finishing and renovation materials

## advantage for usage

- Four saws in one: portable circular saw, rail-mounted portable saw with pivoting guard, plunge-cut saw and shadow gap saw.
- Pivot point alongside rail. Only one marking pointer irrespective of angle and with or without rail.
- First saw in its class with a lever to retract the pivoting guard.

## description

The KSP 40 Flexistem is a unique portable sawing system comprising a 40-series circular saw and a compact guide rail in a practical carrying case. The benefits to joiners, carpenters and interior decorators are self-evident:

This box of tricks contains everything you need when working on site, for cutting panels to size, sawing shadow gaps, and shortening doors. The relevant sawing system is quickly assembled whatever the job. In conjunction with the innovative Flexi-Guide, the compact and rugged KSP 40 Portable Circular Saw provides an ideal solution for practically every type of cut. Supplied together with a practical carrying case, it's an unbeatable combination.
