Orbital Disk Sander EVA 150 E / 5

ref.no.: 917710

EAN: 4032689186399

In MAFELL-MAX

Technical data

Sanding disc size	Ø 150 mm
Stroke	5 mm
Nominal no-load speed	6000 - 12000 1/min
Nominal input	350 W
Weight	2,1 kg
Vibration	< 2,5 m/s²
Universal-motor	230 V / 50 Hz

Delivery specification

1 universal filter bag UFB-1

1 set of Abranet® abrasive mesh discs consisting of: 1 x HD P 60 / P 80 / P 100 / P 120 / P 150 / P 180 / P 240 / P 320

1 soft sanding pad

1 EVA-SA interface pad

1 auxiliary handle

1 edge guard

1 Mains cable 4 m (13.1 ft)

Applications

- Coarse and fine sanding
- Sanding between coats
- Flat surfaces
- Curved surfaces
- Compatible materials include solid wood, paint, veneered surfaces

Advantages

- Absorbers isolate the main parts of the machine that are held by hand, so that vibration generated by the sander is not transmitted to the user. This protects the user against a health hazard and makes working with the machine more pleasant.
- Thanks to the ergonomic auxiliary handle, the user can accurately guide the EVA 150 E with both hands, no matter what the sanding task. The handle can be detached when it is not required.
- Adjustable edge protection effectively avoids damage to both the workpiece and the sanding pad of the EVA 150 E.
- In combination with the multi-perforated sanding pad, powerful self-extraction creates a low-dust and safe working environment. As a consequence, the abrasive disc is less prone to clogging, disc life is prolonged, and work outcomes are improved.

Description

Absorbers isolate the main parts of the machine that are held by hand, so that vibration generated by the sander is not transmitted to the user. This protects the user against a health hazard and makes working with the machine more pleasant.

The EVA 150 E offers a 20 percent higher speed than conventional random orbital sanders, which appreciably increases the removal rate. As a result, given the same quality of surface, you can perform the work up to 20 percent quicker and ultimately save costs.
